

Detailing Text 2018

01. COVER PAGE

Good Morning /Afternoon / Evening Doctor (As the Time may be)
Regards from Gemini Labs Making Inroad in Medicare,

We at Gemini labs Committed to Quality through GMP certified Production and also committed to Affordability through Low Price Fixation & DPCO rate.

02-GEMRON XT (GXT)

Doctor, give a boost to iron stores with **GEMRON XT** tablets combination of Ferrous Ascorbate 100mg equivalent to 100mg elemental Iron with Folic acid 1.5mg and Zinc 22.5mg

Doctor, Ferrous Ascorbate is a perfect agent to treat iron deficiency anemia due to its effect on improvement in Hb levels and excellent gastrointestinal tolerability.

As per reference Folic acid in GEMRON XT supports rapid growth of the placenta and fetus & reduces the occurrence of neural defects.

Doctor, Zinc is absolutely required for normal embryonic development and fetal growth.

Doctor, for patients' convenience **GEMRON XT syrup** is also available with 30mg equivalent elemental Iron and Folic acid 500 mcg per 5ml

Doctor, in indication like Iron deficiency Anemia, Pregnancy & Lactation and Menorrhagia,

Please prescribe GEMRON XT, The trusted Hematinic.

For Pediatrics

Doctor, give a boost to iron stores of babies with **GEMRON XT Drop** that contains 10mg Ferrous Ascorbate with equivalent elemental Iron of 10mg and Folic acid 100 mcg per ml

Doctor, Iron Supplementation is considered after 4-5 month age for full term babies but for a Preterm Babies and LBW(Less Baby weight) babies are suggested oral iron Supplementation after 2-3 months as they get birth with less deposit of iron store. This is because during the last trimester baby receive iron from mother and preterm babies below gestation period of 37week obviously receive less iron deposit from mother

Please consider our GEMRON XT Drop for preterm babies after 10weeks age and for full tem after 18 week age

The recommended dosages are a of 1mg of iron /kg body Wight [**Dosage based on recommended from: PEDIATRICS 2010; Volume 126; 1040-1050.**]

03- GEMRON (GMR)

Doctor, Iron deficiency is the most common micronutrient deficiency worldwide.

Please consider **GEMRON capsule** , a brand of Ferrous fumarate 300mg equivalent to 98.6mg elemental Iron with Haematinic factor Vitamin C , B6, cyanocobalamin , Folic acid with Zinc, Copper, and Manganese

Doctor, Ferrous Fumarate is recommended by WHO and widely used as iron supplementation. Further availability of 50mg of Vitamin C and 1mg of Folic acid facilitate better absorption of iron.

Doctor, uniqueness of no iron smell, no belching on oral administration and very affordable price Rs3.50 per Cap qualifies as Iron Supplementation therapy for entire family

Doctor, **GEMRON syrup** also available with Ferric Ammonium Citrate 75mg/5ml along with all haematinic factors B complex, Vitamin C and Zinc

Doctor, in Iron deficiency anemia, Megaloblastic Anemia, Pregnancy & Lactation, Post-Menopause and worm infestation please prescribe our **GEMRON Capsule & Syrup**, wholesome nourishment for blood for entire family.

04-OSTERGEM (OST)

Doctor, Highest elemental calcium comes from natural rock calcium carbonate

And our **OSTERGEM** is tablet of 1250 mg Calcium carbonate equivalent to 500mg elemental Calcium and Vitamin D3 500IU for whole family calcium supplementation

The combination effectively maintains bone metabolism & calcium homeostasis.

Doctor, As per reference supplementation of 400-1200 IU of vitamin D per day for the elderly (>65years) in combination with calcium results in a relative reduction of the occurrence of non-vertebral fracture of 10-20%.

Doctor, Calcium and vitamin D supplementation for 6weeks during pregnancy lead to decreased caesarean section rate and hospitalization.

Calcium carbonate of **Ostergem** offers highest **40% of Elemental calcium** followed by others

Therefore in, Osteoporosis, Postmenopausal osteoporosis, Pregnancy and lactation and Hypocalcemia please prescribe **Ostergem** the Calcium **supplementation for whole family**.

05. MV 20go (M20G)

Health of the root ensure healthy outcome...

Doctor, ensure healthy placenta for healthy pregnancy outcome with MV 20 go a brand of DocosaHexaenoic Acid (DHA) 200mg, L-Methylfolate Calcium 1mg, Pyridoxal-5-Phosphate 1.5mg, Methylcobalamin 1500mcg and VitaminD3 500IU

Doctor, MV 20go

Helps support fetal heart, brain, eye & nervous system tissue development.

Ensure better placentation & avoid the risk of placental malformation

Inhibits the placental inflammation and dysfunction implantation

Corrects endothelial dysfunction and blood flow

Prevention of neural tube defects

Doctor, in Prenatal & postnatal supplement, Post-pregnancy anemia and Preparatory pregnancy

Please prescribe MV20 go

And go with purest end for healthy outcome.

06-GEMZYME (GMZY)

Doctor, to fight indigestion with 2Xpower

Please consider our **GEMZYME** a brand of **Pepsin 20mg** with B-complex factors to overcome problems of poor digestion of adult

Indigestion increases feeling of stress and discomfort, potentially leading to fatigue, depression, hormonal imbalance, poor nutrient absorption and weight gain.

Doctor, Pepsin in our **GEMZYME** is two time powerful to digest protein than other brands having 10mg pepsin.

And also GEMZYME is fortified with B complex factors that help in the production and secretion of gastric juices which speed up the process of digestion

And maintains microbial balance of the gut.

Dedicated 20mg Pepsin /5ml and palatable cardamom flavors are reasons for prescribing **Gemzyme**

In Loss of appetite, Indigestion, fatigue and bloating, please prescribe Gemzyme

The double strength of pepsin makes better protein digestion.

07. GEFIXIME 200 (G200)

Doctor, **Gefixime** a Brand of Cefixime Trihydrate has been trusted across times

Gefixim is a drug of choice in community acquired infections with good clinical response
And effective against entrobacteriaceae and in the treatment of UTI

Doctor, as per reference cefixime in our GEFIXIM is safe & effective option with 95% efficacy rate in the treatment of multidrug-resistant enteric fever.

Therefore in UTI, RTI & CAP (community acquired pneumonia)

Please prescribe **Gefixime** the trusted across all clinicians for empirical treatment.

08. POXIM (POX)

Doctor, in the empirical treatment for day to day infections, hit the target every time

With our **Poxim** 200 a brand of Cefopodoxime Proxitel 200mg

Doctor As per reference Cefpodoxime in our Poxim is effective and safe oral option as compared to cefixime for treatment of typhoid fever

Also a study demonstrates that tissue penetration of cefpodoxime is two times more than that of cefixime

Doctor Poxim is available in 50mg & 100mg Dry Syrup along with 100mg DT tablet for the Paeditric use

Doctor, in RTI (Respiratory tract Infection), SSTI (Skin & soft Tissue Infection). Otitis Media, Un complicated UTI, and Sinusitis,

Please consider **Poxim** an outstanding 3rd generation cephalosporin

09. AZIGEM (AZM)

Doctor, when atypical pathogens are the suspect

Consider our Azigem a brand of Azithromycin

That enhances power to snub them all

Azigem is available in 500mg and 250mg tablets.

Doctor a recent survey as per reference suggests that azithromycine is the safe drug when given pregnancy without an increased risk for malformations.

Also as per reference azithromycine is effective and well tolerated in Indian patients with Bacterial URTIs (Upper Respiratory Tracts Infections)

It provides immune-modulatory benefits useful in chronic respiratory inflammatory diseases

Azithromycin, 500 mg thrice weekly for 8 weeks is a safe and effective treatment for acne vulgaris in adolescents, with excellent patient compliance as per reference.

Doctor for your Peadiatirc Patient we have **AZGEM-100 (Azithromycin 100mg)** Suspension in 30ml pack, **AZIGEM-200 (Azithromycin 200mg)** in 30ml pack and **AZIGEM-XL (Azithromycin 200mg)** in 60nl pack per 5ml .

Therefore doctor in Upper and Lower RTI, SSTI (Skin & Soft tissue infection), AECB (Acute bacterial Exacerbations of Chronic Bronchitis) and in Gynecological Infection,

Please prescribe **Azigem** a clear winner with remarkable safety.

10-MAHAGIN SR (MSR)

Doctor, In long term management of pain please consider our **MAHAGIN SR**, a sustained release tablets of aceclofenac 200mg

Doctor, aceclofenac in Mahagin SR is effective and well tolerated option in patients with osteoarthritis, rheumatoid arthritis & ankylosing spondylitis.

Aceclofenac has superior selectivity for COX-2 inhibition and thus does not disrupt generation of normal prostaglandin in the stomach mucosa.

Doctor, the sustained release of **MAHAGIN SR** is equivalent to immediate release aceclofenac 100mg when administered at the same total daily dose

Doctor, in Rheumatoid arthritis, Osteoarthritis, ankylosing spondylitis and in Pain & inflammation please Consider **MAHAGIN SR**,

Once a day for 24X7 relief from pain

11-MAHAGIN SP (MSP)

Doctor, when edema & inflammation co-exist with pain

Please trust speedy performance of MAHAGIN SP, a combination of Paracetamol 325mg with Aceclofenac 100mg & Serratiopeptidase 15mg tablets

Doctor, MAHAGIN SP is a potent & safe analgesic that provides greater symptomatic relief in painful conditions,

Paracetamol is a time tested antipyretic & analgesic.

Serratiopeptidase in **MAHAGIN SP**

Works rapidly on inflamed tissues through its anti-inflammatory & anti-edemic properties

And also works as carrier of antibiotic to site of action.

Doctor, in Fractures & bone dislocation, Post surgical inflammation & pain, Dental extraction and injuries & post surgical pain & inflammation

Please prescribe our **MAHAGIN SP**

a very dependable to tackle pain & inflammation

Doctor, for Muscle spasm & Muscle contraction headache we have MAHAGIN MR, a tablet of Chlorzoxazone 250mg with Paracetamol 325mg & Aceclofenac 100mg at a very low price of Rs 5.60 per tab

12-MAHAGIN TH4 (MTH4)

Docotr, don't let muscles spasm & pain come in the way of your Paitents

Consider our Mahagin TH4 a brand of Thiocolchicoside 4mg with Aceclofenac 100mg and Paracetamol 325mg tablets

Docor, Thiocolchicoside, offer new generation muscle relaxant with the added anti-inflammatory and analgesic power of aceclofenac and paracetamol

Doctor, Thiocolchicoside in our Mahagin TH4 is a significantly reduces the intensity of pain, relieves muscle spasm and improves motility and acts as a preferred option for lower back pain associated with muscle spasm.

Doctor, in low back spasm & pain, frozen shoulder and sprains & starins

Please prescribe Mahagin TH4

That relaxes sprains & spasm ...relieves pain

13-MAHAGIN PLUS (M+)

Doctor, Painful moments in life needs **MAHAGIN PLUS**, a tablet of Aceclofenac 100mg with Paracetamol 325mg tablets

Doctor, as per reference a study conducted on Indian patients demonstrates that aceclofenac-paracetamol combination is effective and well tolerated in relieving Osteoarthritis flare up pain

Combination is significantly superior to Aceclofenac mono therapy treatment in reducing pain.

Doctor, in ankylosing spondylities, Rheumatoid arthritis, post-operative pain, low back pain, Osteoarthritis, and dental pain

Please consider **MAHAGIN PLUS** that makes pain go away

14- BACTORUIN (RUIN)

Doctor, consider our BACTORUIN a brand of cefuroxime axitel 500mg tablets to right move to defeat tough infection

Doctor, cefuroxime is stable against beta lactamase enzymes and it has ability to eradicate beta lactam producing bacteria making it effective in today's emerging trend of antibiotic resistance.

Broad spectrum antibacterial with required pharmacokinetic profile that permits convenient BID dosage

Docotr, as per reference cefuroxime in our BACTORUIN achieve superior cure rate compared to Co-amoxyclav in chronic bronchitis

In URTI, LRTI, UTI, SSTI and gonorrhea

Please consider BACTORUIN that ruins the game of tough bacteria

15-GEFIXIM- O (GFO)

Doctor Presenting **Gefixim-O** a tablet of Ofloxacin 200mg and Cefixime 200mg that formulate a strategic alliance for synergetic effect

The rationale of combination is that Ofloxacin chelates outer membrane of gram+ve bacteria that improving the entry of cefixime to cause the inhibition of cell wall synthesis.

Doctor, GEFIXIM-O is a WHO & DCGI approved combination & a recommended as first line therapy for the treatment of typhoid fever.

The fixed dose combination (FDC) of Cefixime & ofloxacin shows significant reduction in the nocturnal awakening and provides sound sleep

Doctor, in typhoid the combination of cefixime and ofloxacin shows fever clearance in 3days

Therefore doctor
in typhoid fever, RTI (Respiratory Tract Infection), UTI (Urinary Tract Infection) and fever of unknown reason please consider **Gefixim O** that ensured complete recovery

16-GEPAN DSR (GDSR)

Doctor, For day & night relief from acid disorders please consider **GEPAN DSR**, a capsule of Pantoprazole 40mg with Domperidone 30mg sustained release pellets

Doctor, as per reference pantaprazole is safe and effective for long term administration for elderly

Also available **GEPAN 40** of Pantaprazole 40mg enteric coated tablets Just @ 4.90 per Tab

In GERD, Dyspepsia, Gastric and duodenal ulcers, irritable bowel syndrome, chronic gastritis and ZollingerElison's Syndrome please consider our GEPAN DSR and GEPAN 40 for dual approach to acid control & dyspepsia

17-GERAB DSR (RDSR)

Doctor, targeted delivery of drug is the need of the hours

Presenting GERAB **DSR**, a capsule of Rabeprazole 20mg and Domperidon 30mg in sustained release pellets that posse Technology designed for targeted delivery of Rabeprazole in combination of domperidon and where each pellets of rabeprazole is optimally stabilized as tri layered enteric to keeps rabeprazole at the core

- Outer layer of HPMCP coating ensures rabeprazole is released in alkaline medium
- 2nd layer of HPMC neutral which ensures direct contact with acidic enteric coated materials
- 3rd layer of rabeprazole remain 100% available at the site of action

Doctor, in Dyspepsia, GERD, Chronic gastritis and NSAID induced ulcer

Please prescribe **GERAB DSR**, a PPI with technology for targeted delivery

18-GEMCID O (GCD)

Doctor, for cools acidity controls associated pain please consider GEMCID O, a combination of Magaldrate 400mg and Oxetacaine 10mg with Simethicone 60mg Suspension

A combination that effectively treats abdominal pain & discomfort caused due to acid indigestion

Doctor, as per the reference Oxetacaine is a potents anesthetic that works even in highly acidic conditions and produces antispasmodic action on smooth muscles thus relieving pain caused by acid indigestion.

Magaldrate neutralizes stomach acid by increasing gastric Ph

Doctor, Simethicone is useful adjunct in the symptomatic treatment of flatulence & functional gatric bloating

and has a foam-inhibiting action helpful in reducing excessive bloating in stomach

Doctor, we have also GEMCID gel without Oxetacaine for long term use

Doctor Both Gemcid O and Gemcid has no chalky taste and come with peppermint flavor & sugar free also

Doctor, in hyperacidity, heartburn, gastritis, belching, post dysentery & stomach inflammation, indigestion and peptic ulceration

Please prescribe our GEMCID O and GEMCID the dual action antacid

20- AMBROTECH-LS (ABLS)

Doctor, to bring back the smile in the tiny tots suffering from bronchitis consider our AMBROTECH-LS drop, a brand of Levosalbutamol 0.25mg with ambroxol HCL 7.5mg and Guaiphenesin 25mg per 1ml

Levosalbutamol is active isomer that binds to beta 2 receptor sites produces broncho dilation

The combination offers

Promotes mucus clearance, facilitates expectoration and eases productive cough

Effective in reducing exacerbations of chronic bronchitis

Protection from inflammatory reactions

The recommended Doses of Ambrotec LS for 1-2 years age is 0.8ml TID and for 2-3 years age is 1.2ml TID

But recommended Levosalbutamol doses per kg body weight is 0.05mg

Doctor, In bronchitis please consider our AMBROTECH-LS that restore the smile

21- GEKAST-KID (GKS)

Doctor, combination therapy of montelukast and levoceterizine is more effective than mono therapy in persistent allergic rhinitis, presenting GEKAST-KID suspension a brand of montelukast 4mg and levoceterizine 2.5mg/5ml for babies below five year

Doctor A study of combination in pediatric patient 2 to 14 years of age with seasonal allergic rhinitis demonstrated a good safety profile

Doctor, Gekast-kid suspension is buffered for co-active stabilization with ionic buffering technology that ensures no interaction among both the drugs and offers full efficacy till expiry in absence of Ionic Buffering Technology the combination suspension becomes unstable well before self life as levoceterizine is Acidic stable and montelukast alkaline stable

Also for Babies above 5years we have GEKAST-LV KID dispersible tablets of montelukast 5mg with levoceterizine 2.5mg with tasty orange flavor and 11sec dispensability and with economical pricing Rs4.60 per tablet

In allergic rhinitis, asthma, add on therapy to corticosteroids treatment please consider GEKAST-KID suspension and GEKST-LV KID tablet the empirical therapy to allergic rhinitis and asthma

22- CETGEM SYRUP (CTGS)

Doctor consider Cetgem syrup a brand of Cetirizine dihydrochloride 5mg/5ml, an anti allergy that does not upset activeness

Doctor, as per reference cetirizine dihydrochloride in cetgem syrup absorbs rapidly and shows significant clinical inhibition of a wheals and flare response in infants & children

Clinically improves cough due to pollen allergy in children

Provides significant relief from symptoms of seasonal allergic rhinitis, both in children with and without concomitant asthma

Doses- 6months to 2 years: 2.5ml/day
2 to 5 years: 2.5-5ml/day

Doc tor, in allergic rhinitis, Urticaria, Bronchial asthma and nasal congestion
Please consider CETGEM Syrup that puts allergy to rest

23- CETCOLD SYRUP (CLDS)

Docotr, when cold, fever & congestion upset little ones please consider CETCOLD Syrup a brand of Paracetamol 250mg with Chloroheniramine 2mg and phenylephrine hydrochloride 5mg

Doctor, Paracetamol 250mg in cetcold syp is a time tested & trusted analgesic and antipyretic that works effectively in cold & flu

Along with Partacetamol rational combination of CPM 2mg and Phenylephrine 5mg per ml is the accepted and approved anti cold formulation for kids

Doctor, in common cold & flu, nasal congestion, fever and allergic rhinitis please prescribe Cetcold syrup that set right cold, fever & congestion

24. GEMKOF (GKF)

When cough irritates trust GEMKOF an accepted cough syrup combination that tackles both productive cough & bronchial asthma

And GEMKOF Syrup contain terbutaline sulphate 1.25mg with bromohexine 2mg, Guaifenesin 50mg & menthol 0.5 mg per 5ml

Doctor,

The logical combination of bronchodilator, a Terbutaline sulphate acts as a known bronchodilator, mucokinetic agent and expectorant along with soothing agent of menthol makes a patient compliance productive cough Syrup

In Cough with bronchitis and productive cough please consider a delicious, bitter free and sugar free Gemkof syrup

A gem among all the cough silencers

25- GEMKOF-D (GKFD)

Doctor, against dry cough congestion hit a boundary with 2Xpower GEMKOF-D a syrup of Dextromethorphan 15mg, CPM 4mg, Phenylephrine 10mg and menthol 0.5mg/5ml

Doctor the Power of 4 constituents normally Cough suppressant, Anti allergic, Nasal decongestant and Antitussive are in 2x power to tackle Dry and allergy cough powerfully

The strength rationale of DMR 15mg, CPM 4mg, Phenylephrine 10mg is based on just matching to optimal dose per 6 hours.

Further Gemkof D syrup is very palatable with bitter free and also sugar free

Doctor, In dry, unproductive cough, post viral cough and allergic cough & congestion Please prescribe Gemkof-D the logical dry cough syrup

26-AZIGEM XL (AXL)

Doctor, when atypical pathogens are suspect trust worthy Macrolide for tiny tots

Presenting AZIGEM XL is a brand of Azithromycin 200mg suspension per 5ml in 60ml pack and also available AZIGEM -200 and AZIGEM-100 suspension in 30ml pack

Doctor Azithromycin is predominantly used in pediatrics to treat both upper & lower respiratory tract infections

Doctor Our Azigem 100&200mg Suspension and Azigem XL comes with Pineapple Flavor, Superb taste and with zero Bitterness which make easy administration to tiny tots

Further Dosages of Azithromycine 10mg per kg body weight justify 60ml packing of Azigem XL

Therefore doctor, In typhoid fever, Upper and Lower RTI, CAP (Community Acquired Pneumonia)

Please consider AzigemXL and Azigem 100mg & 200 mg Susp in

As being Tough on pathogen and Easy on Patients.

27. POXIM DRY SYRUP (PXDS)

Kids with different body weight demand precise dosing to snub the infection in children
Consider our Poxim dry syrup a brand of cefpodoxime proxitile dry syrup available in 50mg and 100mg per 5ml strength

Doctor, cefpodoxime in poxime is an excellent efficacy supported with excellent pharmacokinetic profile and well tolerated and demonstrates good bacteriological and clinical efficacy in paediatric patients with various infectious diseases.

Doctor, as per the reference it is useful option for empirical therapy in children with acute otitis media, tonsillitis and pharyngitis

Availability of 50mg & 100 Dry Syrup with 100 mg Kid Tab can easily be calibrated to meet the dosage requirement of 8.4mg per kg body per day in BID

In URTI, LRTI, UTI and typhoid please prescribe poxim dry syrup and Azigem 250kid tab
The potent powerful therapy in RTI

28. GEKAST LV (GLV)

Trust technology for better performance

Doctor Please consider **GEKAST LV Formulated** as bi layer tablet Prepared with CAS technology with combination of Montelukast Sodium 10mg and Levocetirizine 5mg for stability and efficacy of duo

Doctor as you know that Montelukast is **alkaline stable** and Levocetirizine **acid stable**

but through formulation as bi layer tablet and Prepared with the CAS technology both remain chemically compatible as Montelukast is coated with polymer barrier coating (not susceptible to acid) to avoid the physical contact of the drugs & prevents degradation.

Further CAS technology improves & increases the stability of both the drugs in combination and get efficacious than others.

Doctor, **GEKAST LV KID** tablets is also available with Montelukast 5mg & Levocetirizine 2.5mg at very competitive price of 4.60 per tab for kids above 5years.

And also **GEKAST KID Suspension** of Montelukast 4mg & Levocetirizine 2.5mg/5ml with delicious orange flavor is available for baby below 5 years. Doctor, Gekast-kid suspension is also manufactured as buffered for co-active stabilization with ionic buffering technology that ensures stability of Suspension till self life completion

Doctor, in seasonal/perennial allergic rhinitis and rhinitis associated with asthma

Please prescribe our **GEKAST LV** tablet, **GEKAST LV KID tablet** and **GEKAST KID syrup** where Technology designed to bring stability and efficacy

29. GEKAST FX (GFX)

Doctor, when the fexofenadine is the choice of anti allergy please considers our **GEKAST FX**, a tablets of Montelukast 10mg and Fexofenadine 120mg

Remarkable safety factor & remarkable clinical results of fexofenadine suggest better combination with montelukast

Doctor, as per reference the mean change of TNSS was significant in fexofenadine-montelukast group as compared to levoceirizine-Montelukast group.

The fact that Fexofenadine does not cause cardio toxicity & does not cross BBB does add further to the safe profile of the product

In recurrent allergic rhinitis, asthma and seasonal allergies please prescribe **GEKAST FX** that relieves allergy & asthma without compromising safety.

30. CETGEM LV (CLV)

Season changes is not climate change it passes a risk of increased allergy & asthma

Doctor Presenting **CETGEM LV**, a brand of Levocetirizine 5mg tablet to down size such risk

Doctor Levoceterizine is known for being a non-sedating & potent anti histamine with a good tolerability profile.

Effectively reduces symptoms of seasonal and perennial allergic rhinitis & improves QOL(Quality of Life) .

Doctor, as per the reference, levocetirizine is more efficacious than desloratadine 5mg in the treatemtn of chronic idiopathic urticaria

Doctor, in Allergic Rhinitis, chronic idiopathic urticaria, Bronchial Asthma and nasal congestion please consider **CETGEM LV** tablet the right ant allergic to fight allergy & asthma

31. AMBROTECH (ABT)

Doctor in post viral days when fever goes back but cough continues make it easy with our **Ambrotech** a bi layer tablet of Ambroxol 75mg in Sustained Release base (SR base) with Levoceterizine 5mg

Ambrotech once daily dose makes sure 24hours relieve from allergic and dry cough

Doctor 75mg Ambroxol in **Ambrotech** the Sustained release has been formulated to match 1.3hrs half life and 8.8 hrs of beta half life with release of 20% by 1st hours, 35% by in 3rd hours and 80% by in 10th hours.

Ambroxol imparts a good antioxidant effect on lungs thus protecting lung tissue.

and an excellent mucolytic agent that effectively controls post-viral cough.

Ambroxol in our Ambrotech also increases secretion of surfactant in lungs thereby reducing exacerbation of chronic bronchitis & inflammatory reactions.

Levoceterizine acts as highly effective in persistent exposure & free of sedative effects
Doctor Ambrotec Syrup is also available with composition of 2.5 mg levoceterizine and 15mg of Ambroxol per 5ml Syrup for paediatric use.

Therefore doctor in post-viral cough, productive cough and Allergic Cough, Please consider **Ambrotech** tablet one daily and get rid of irritating cough.

For Paediatric Promotion

Doctor in post-viral days when fever goes back but cough continues
Make it easy with our Ambrotech Syrup that contains 2.5 mg levoceterizine and 15mg of Ambroxol per 5ml Syrup.

Ambroxol imparts a good antioxidant effect on lungs thus protecting lung tissue.
And is an excellent mucolytic agent that effectively controls post-viral cough.

Ambroxol role as adding to surfactant reduces exacerbation in Bronchitis and inflammatory reaction suggests use in Allergic Cough and also for prophylactic treatment of asthma in children.

Therefore doctor in post-viral cough, productive cough and Allergic Cough, Please consider Ambrotech Syrup 2.5 ml to 5ml twice a day to get rid of irritating cough.

32. AMBROTECH-CC (ABCC)

Doctor, when cold & cough are of varied etiology.

Please consider our AMBROTECH-CC a brand of Ambroxol 15mg, CPM 2mg, Dextromethorphan 10mg, Guaifenesin 100mg and phenylephrine 10mg tablets a multi-symptom relief formulation.

Doctor As per reference (Open Journal of Respiratory Diseases, 2014, 4, 73-82)
Multi-symptom relief combination products containing several active ingredients provide a safe, effective, cost-effective, and convenient way of treating the multiple symptoms of common cold and cough.

Further the rationale combination five ingredients of mucolytic, anti Histamine, Cough suppressant, Cough expectorant and Nasal decongestant tackle cough and cold of varied etiology effectively.

Doctor, in post-viral cough, dry cough and allergic cough.

Please consider our AMBROTECH-CC
a right and multitask approach to clear cold & cough.

33-MV 20 (MV20)

Doctors, fulfill the Nutritional GAP with **MV20** a rich source of antioxidant, B complex and Minerals

MV 20 is a perfect health supplement that bridges nutrient gap to meet the RDA (Recommended Daily Allowance) of nutrients.

MV20 tab contains a perfect balance Pre Vitamin A 5000 IU as acetate and Pro Vitamin A or betacarotene 5.6mg Equivalent to 933 IU and Vit. C, E and selenium. Making combination of these imparts remarkable anti-oxidant properties.

Doctor, MV 20 contains 500mcg biotin along with other essential B complex for metabolic process of amino & fats for cell metabolism.

The combination also contains micronutrients useful for correcting minerals deficiency & strengthening immune system.

Doctor therefore requesting your prescription of MV 20 available in Tablet, Syrup and Drops in the requirement to Boosts energy, strengthens immune system, improves appetite and reduces oxidative stress.

Doctor, my sincere request once again for **MV20** range as a daily regimen for Vitamin supplementation

For Pediatric Promotion

Doctors, fulfill the Nutritional GAP of tiny tots with **MV20 drop**

That contains betacarotene 18mg eqv to 270IU Pro Vitamin A and Vitamin D 200IU ,

Also contains Biotin 30mcg along with B Vitamins of B1 B2 B3(as Niacinamide) B6 and B12. Also Zinc 2mg is available along with trace element like Potassium Manganese Sodium and Chromium

Doctor MV 20 drop has merit of your consideration for prescription as its main constituent is Pro Vitamin A and D 200IU per ml drop

Please Prescribe MV 20 drop for Vitamin A and D supplementation along with fulfilling Nutritional gap of B Vitamins and Trace element including Zinc

Doctors, fulfill the Nutritional GAP of tiny tots and growing children with our **MV20 drop and Syrup** a rich source of antioxidant, B complex and Minerals

34. MV 20go (M20P)

Doctor, some vital elements makes the nature go perfect

So also some vital nutrients make the body system go perfect

At this backdrop presenting MV 20go Tablet that contain active and purest end of essential vitamin required for perfect body system

MV 20go has the combination of five essentials DocosaHexaenoic Acid (DHA) 200mg, L-Methylfolate Calcium 1mg, Pyridoxal-5-Phosphate 1.5mg, Methylcobalamin 1500mcg and VitaminD3 500IU

Doctor, The combination has validations that is

- promotes restoration of lost cutaneous sensation in DPN (Diabetic peripheral neuropathy)
- reduces oxidation stress & promotes nerve health
- Creates healthy blood cells and improves blood flow
- Maintains proper levels of calcium and phosphorus
- Improves nerve conduction velocity and improves quality of life

In indication like peripheral neuropathy, diabetes, geriatrics support and critical illness post care please consider our MV 20go and go with active & purest end for healthy outcome.

35. TUSKER OZ (TOZ)

Doctor In polymicrobial infections please consider the front line therapy **Tusker OZ** a combination of Ofloxacin 200mg and Orindazole 500mg Tablet

The combination has a wide spectrum of activity against aerobes, anaerobes & protozoans

It has excellent option for treating acute pelvic inflammatory disease.

It shows good efficacy in the treatment of dental infections with high cure rates.

Therefore Doctor in Gynecological infections, Diarrhea of mixed origin, dental infection, skin & soft tissues infection and surgical infections please consider **Tusker OZ** that win the battle against mixed infections.

36. CETCOLD (CLDT)

Doctor Trust only CETCOLD tablet the right combination against common cold & flu

A tablet combination of Paracetamol 500mg, phenylephrine HCL5mg, Diphenhydramine HCL 25mg and Caffeine 50mg

Doctor 500mg of Paracetamol in CETCOLD works effectively in cold & flu

As per reference in a study on 263% patients with two 500mg units of paracetamol provided pain relief in 94% patients whereas with two 325mg units provided relief in 77% patients

The other constituent like nasal decongestant Phenylephrine along with antihistamine further supported with CNS (Central Nervous Stimulant) in CETCOLD makes it logical anti cold Tablet

Doctor, Cetcold syrup also available with Paracetamol 250mg, CPM 2mg and phenylephrine HCL 5mg per 5ml syp

Doctor in condition of common cold, nasal congestion, Fever and allergic rhinitis please prescribe

CETCOLD and make your patients move on undisturbed with common cold & flus
